## AIR FRY

Air Fry allows you to make your favorite fried foods with a crispy-on-the-outside, juicy-on-the-inside taste using little to no additional oil.

## DUAL ELEMENT

The 9"/6" element matches the heat to the pan you're using so you can cook your meal the way you want.

## WARMING CENTER

A warming center adds a dedicated cooktop zone to keep your finished food warm while you use the other elements to get the rest of your meal cooked.

## DELAY BAKE SETTING

With the Delay Bake setting, you can place your dishes inside the oven and schedule when you want the baking to begin so your food is ready when you are.

## FAN CONVECTION COOKING

With two heating elements, fan convection circulates hot air around the oven so you can cook the whole meal at once without having to rotate your dishes for all around baking.

## 5 ELEMENTS

With an extra element, you have the flexibility to prepare your meal without juggling pots and pans, getting you to dinner fast.

## HIGH TEMP SELF CLEAN

Fight the toughest baked-on foods in your oven with this high-heat, self-cleaning technology.

## LARGE OVEN CAPACITY (5.3 CU. FT.)

Cook the whole meal with plenty of space in this 5.3 cu. ft. capacity electric range.
