- ▶ IPX5 for the Speaker Front. Weather Resistance for Speaker Back Side
- ▶ Neodymium Magnet for Light Weight
- ▶ Premium ID design to Match your Premium Motorcycle Culture

KAPPA PERFECT SPEAKERS

Premium Speakers for Harley Davidson Selected Touring Series Motorcycles

Features and Benefits

Basalt Fiber Woofer with Plus One™ Technology for Deeper and Bigger Bass

Lightweight Basalt fiber combined with Harman's Patented Plus One™ technology, which not only bring the sound accuracy, but also increase the loudness.

1" Edge-driven Polyphenylene Sulfide-Dome Tweeter to Reproduce Perfect Sound

Engineered for motorcycle applications, we selected the 1" Sulfide-Dome in an Edge-driven design for perfect sound.

Removable Tweeter Design offer the Coaxial and Component System Installation Options

The Kappa Perfect coaxial models tweeter is smart removable design, which will offer you the component upgrade based on riders listening preference by using the included tweeter installation kits.

IPX5 for the Speaker Front. Weather Resistance for Speaker Back Side

The speakers are specially designed for the IPX5 for front side, weather resistant for the back side, which give you the freedom to use both in car or motorcycle.

Neodymium Magnet for Light Weight

Neodymium magnets provide higher efficiency power in small size while reducing their weight making them idea for motorcycle applications.

Premium ID design to Match your Premium Motorcycle Culture

Infinity Kappa Perfect's design is inspired by motorcycles & the rider culture. Their inky gloss/satin black color motif with broadly spaced "KAPPA PERFECT" branding is reminiscent of popular motorcycle brands & logo treatments, and sinuous tribal tattoos as seen in the tweeter grip pattern and equalizer.
