### **Single-sided on-ear USB headset - affordable quality sound for home, office and call center**

The Manhattan Mono USB Headset is your versatile audio tool for common calling applications, such as Skype, Teams or Zoom, across all platforms and operating systems. Whether you're participating in a conference call, listening to a webinar or talking to a customer, you'll get reliably clear sound quality every time. Your hands stay free so you can type, enter numerical data and more.

#### **Plug and play, wired for business**

Ready to go out of the box, this USB Headset lets you start talking and listening as soon as you plug in its single USB-A connector to your device. It works no matter what operating system your device supports, and you never have to worry about empty batteries since it's USB powered.

#### **Comfortable all-day wear**

The USB Headset's lightweight, adjustable headband features an ultra-soft over-ear cushion that gives hours of comfort. You can easily reposition the left-side flexible boom mic for better voice capture and then move it out of the way

when you're done making calls.

### **Convenient in-line control**

Convenient controls located on the USB Mono Headset's cord make it easy to adjust the volume or mute the mic and speakers individually, all without disrupting the call or your workflow.

### **Features:**

- One-sided design, ideal for home, office and call center applications
- High-quality audio and reliable call clarity
- Padded over-ear cushion for comfort during long periods of use
- Adjustable headband for secure, relaxed fit
- Flexible, retractable microphone boom for hands-free communication
