High-definition performance for personal computing.

Manhattan Mini DisplayPort Cables provide a single-cable solution that delivers both high-definition digital audio and video signals between desktop and notebook computers and an output device. With 17.28 Gbps bandwidth (HBR2), DeepColor and 24-bit, eight-channel uncompressed audio capability, the 20-pin connector is small, compact and ideal for use with Mini DisplayPort-equipped devices, flat-panel displays, slim-profile devices and many future consumer electronics. Full foil-and-braided shielding, molded boots with strain relief, protective PVC jackets and gold-plated connections help Manhattan Mini DisplayPort Cables provide maximum conductivity and clear, crisp signal transmissions with reduced EMI interference and distortion.

Features:

- Provides Mini DisplayPort 20-pin male to DisplayPort 20-pin male connections
