

E3-Series eMerge Access Control Systems - Release Update V0.32-07e

Effective October 16th 2015, NS&C has released a firmware update for the E3-Series access control products. The enhancement provides the latest in network and browser security enhancements as well as more than 50 new features and product enhancements.

Updated software key enhancements:

- Door Position Switch Option manages unlock, alarm shunt, prop door and forced door settings.
- More Card Types - Toggle (double-presentation to reader), Passage, One-time use codes, and more.
- More Doors and Users (Up to 200 doors, up to 10,000 users)
- One-time Events for unlock of doors and aux outputs (Elite Only / 50)
- Integrated Designer and Badge Utility (Optional, Elite systems only)
- Up to 60-minute Grace Period – Programmable for first-person-in auto-unlock
- Mantrap (Elite Only)
- Audit Log enhancements
