

AXDSPH-HK3 HARNESS

AX-DSP T-Harness

The Axxess T-harness is a basic and simple plug-n-play harness for easy installation of the AXDSP-X or AXDSP-L (sold separately) for vehicle specific applications. Most T-harnesses created by Axxess will have an 8-pin harness, with the speaker wires pinned. If you are installing a 4-channel amplifier with one of the AXDSP interfaces, leave these connectors disconnected. The only reason for connecting these harnesses together would be if the AXDSP interface is being used for adding a subwoofer amplifier only. Some T-harnesses require additional wiring and/or installation steps.

Visit <u>AxxessInterfaces.com</u> for more detailed information about the product and up-to-date vehicle specific applications.

APPLICATIONS

Visit **AxxessInterfaces.com** for current application list.
