PRODUCT OVERVIEW

Our iBeam 3rd brake light cameras are available in an array of specialized sizes to match your vehicle. Sleek, waterproof design is a direct replacement for OEM factory brake lights, offering a perfect fit for your car. With their 170 degree viewing angle, live audio feed, and built-in LED night vision, these cameras provide a clear representation of all activity directly behind the vehicle under any conditions. Defeatable parking lines allow drivers to maneuver their vehicle with confidence. Includes all necessary cables for installation - with a 4 pin DIN to RCA adapter as an added bonus.
