

4.3" DASH MOUNT MONITOR

TE-43VS

IBEAM 4.3" DASH MOUNT MONITOR

SALES 800-221-0932

PRODUCT OVERVIEW

Our iBeam dash mount monitor is an aftermarket solution that looks like it came directly from the factory! This universal color LCD screen will work with any vehicle's aftermarket safety camera system. Connect up to two video inputs, rearview camera and a second camera feed, to give drivers additional visibility into blind spots. Mount the monitor base using the supplied 3M tape and pair it with high quality vehicle safety cameras to extend the driver's view for backing up or changing lanes.

- 4.3" color LCD screen
- Dash mount base with 3M tape
- 2 video inputs: rearview camera input and second video input
