 weight  
1.00 Lbs

 market  
USA, Rest of  
World, Europe

 UPC/EAN  
00635510694113

The D2C-R module converts Differential video standard to composite video standard, using RCA connectors (for input and output). This kit is typically used with NAV-TV kits when adding an aftermarket camera to a system where an OEM camera is already equipped. The D2C-R will convert the OEM rear cam from differential to composite to prevent a ghosting image when (aux -cam is) activated.

### Car Radio Versions

Any

### D2C-R Compatibility Chart

Model	Year Range	Version	Radio	Notes
