# NU-CTS2 Cadillac CTS Navigation Unlock Integration Interface

The NU-CTS2 is a Navigation Unlock integration interface that allows the factory navigation features of your Cadillac CTS radio or the reverse camera to be used by the passenger at anytime.

## Installation

**Installation:** Disconnect the black 44-pin main harness from the back of the radio (see fig. A) Plug the male connector on the NU-CTS2 harness into the 44-pin port on the back of the radio. Connect the factory 44-pin harness into the female connector on the NU-CTS2 harness. Plug the Black micro-fit 24-pin connector on the NU-CTS2 harness into the NU-CTS2.

**2008-2009 Vehicles Only:** Locate the vehicles VSS wire in pin 20 of the gray 20-pin plug on the back of the radio (see fig. A & B). This wire will need to be cut then connected as follows: The green/black wire from the NU-CTS2 should be connected to the radio/plug side of the VSS wire and the green/white wire from the NU-CTS2 should be connected to the vehicle side of the VSS wire.

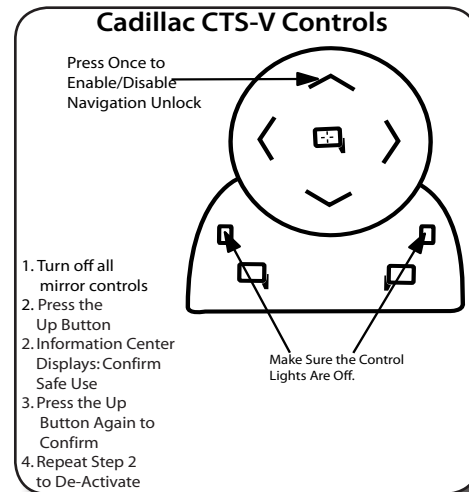

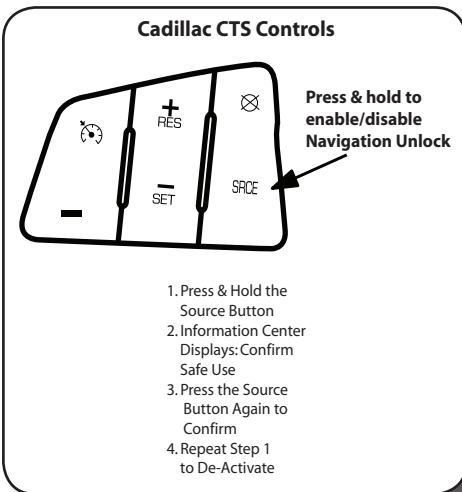

## Operation

### Activating the Navigation Unlock

**Cadillac CTS:** Press and hold the "Source" button on the steering wheel controls (SWC) for two seconds to activate the NU-CTS2. You will hear one chime and the driver information center on the instrument cluster will display "Confirm Safe Use". Press the "Source" button on the SWC again to acknowledge "safe use", **agreeing that use will be performed only by the passenger whenever the vehicle is in motion**, and activate the NU-CTS2. To de-activate the NU-CTS2 simply press and hold the "Source" button on the SWC until two chimes are heard. **PLEASE NOTE:** The NU-CTS2 text will not be displayed when the OnStar Turn-by-Turn Navigation is being used.

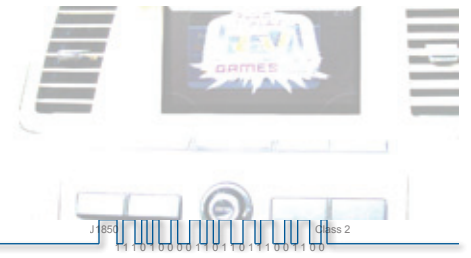

**Cadillac CTS-V:** Make sure that both of the mirror control lights are off on the driver door. Press the Up button on the mirror controls to activate the NU-CTS2. You will hear one chime and the driver information center on the instrument cluster will display "Confirm Safe Use". Press the Up button on the mirror controls again to acknowledge "safe use", **agreeing that use will be performed only by the passenger whenever the vehicle is in motion**, and activate the NU-CTS2. To de-activate the NU-CTS2 simply press the Up button on the mirror control. **PLEASE NOTE:** The NU-CTS2 text will not be displayed when the OnStar Turn-by-Turn Navigation is being used.

**WARNING:** In order to avoid distraction, which could lead to an accident, the driver should never utilize systems unlocked by the NU-CTS2 when the vehicle is in motion. Even when operated by the passenger, the vehicle driver should maintain their attention on the road at all times.

## Operation (cont.)

### Activating the Reverse Camera Unlock

Activate the navigation unlock using the SWC. Make sure that both control lights on the rearview mirror controls on the driver door are off and not controlling either mirror. Press down on the control pad, the rearview camera image will now display on the navigation screen.

**WARNING:** In order to avoid distraction, which could lead to an accident, the driver should never utilize systems unlocked by the NU-CTS2 when the vehicle is in motion. Even when operated by the passenger, the vehicle driver should maintain their attention on the road at all times.

### Activating the Reverse Camera
