

# Wireless speakers are fun, but the OS-440 provides you with an entire wireless SYSTEM.

The OS-440 is the industry's first outdoor smart amplifier.

# OS-440

## Smart Amp

Your smart home deserves a smart yard. The OS-440 is an outdoor amplifier, allowing unprecedented freedom when designing outdoor audio systems. Without being tethered to the house, the OS-440 can wirelessly connect to the home's network and function as a certified Google Chromecast device, interfaces with dlna servers, and multi-zone wireless control.

On-board Bluetooth functionality and a closed, stand alone WiFi direct mode round out the wireless connectivity options of the OS-440. Hard-wiring sources are also an option with analog and digital inputs, allowing the OS-440 to interface with any system or source already in the home.

OS-440

<b>Description</b>	4-Channel, weatherproof, wifi streaming with smart device
<b>Power</b>	4 x 40 watts <1% THD @ 4 ohm Bridgeable to 2 x 80 watts <1% THD @ 8 ohm
<b>EQ</b>	Bass/Treble
<b>100V/70V</b>	No
<b>Overall Response</b>	20 Hz - 20 kHz
<b>Dimensions</b>	1.75" H x 8" W x 9.75" L
<b>Signal to Noise Ratio</b>	82 dB
<b>Gain</b>	29.5 dB
<b>Inputs</b>	Optical, RCA, Bluetooth, Wifi
<b>Input Impedance</b>	12K ohms
<b>Reg Approval</b>	CE, ETL, RoHS
<b>Operating Temp</b>	-20°F to 150°F
