## Wireless speakers are fun, but the OS-440 provides you with an entire wireless SYSTEM.

The OS-440 is the industry's first outdoor smart amplifier.

## OS-440 Smart Amp

Your smart home deserves a smart yard. The OS-440 is an outdoor amplifier, allowing unprecedented freedom when designing outdoor audio systems. Without being tethered to the house, the OS-440 can wirelessly connect to the home's network and function as a certified Google Chromecast device, interfaces with dlna servers, and multi-zone wireless control.

On-board Bluetooth functionality and a closed, stand alone WiFi direct mode round out the wireless connectivity options of the OS-440. Hard-wiring sources are also an option with analog and digital inputs, allowing the OS-440 to interface with any system or source already in the home.

## **OS-440**

Description	4-Channel,	weatherproof,	wifi streaming	with smart device

**Power** 4 x 40 watts <1% THD @ 4 ohm

Bridgeable to 2 x 80 watts <1% THD @ 8 ohm

**EQ** Bass/Treble

100V/70V No

Overall Response 20 Hz - 20 kHz

**Dimensions** 1.75" H x 8" W x 9.75" L

Signal to Noise Ratio 82 dB

Gain 29.5 dB

Inputs Optical, RCA, Bluetooth, Wifi

Input Impedance 12K ohms

Reg Approval CE, ETL, RoHS

Operating Temp -20°F to 150°F
