

## X-Large Full Motion RVM-75FM150

The Rapid Video Mounts Large Extra Large Full Motion Mount is a low profile wall mount for panels up to 90", up to 150 lbs. in weight, and for 16" or 24" stud walls.

The Extra Large Full Motion Mount has been designed for quick, easy, and accurate installation (all necessary hardware included). This mount allows you to have your flat panel TV either flat against the wall (3.60" low profile), tilted down for glare control or optimum viewing angle, or pulled out from the wall (31.0" extension) and angled towards a separate viewing area. Due to its unique single-arm design, this mount allows even large flat panels to be corner mounted.

Also, the 'centering feature' on the wall plate allows a full 8" of lateral shift. With cable management on both the front and rear arm supports and with post installation leveling feature your TV will be mounted right the first time.

Capacity: 150lbs, panels 55" - 90"

Tilts: -3° to 10°

Extends: 31.0"

VESA Pattern: 700 x 500

Low Profile: 3.60 inch tilt-down for glare control or optimum viewing angle, or pulled out from the wall (31.0 inch- extension) and angled towards a separate viewing area.
