

Uniden®

EXTREME LONG-RANGE RADAR/LASER DETECTOR

Wi-Fi
Now Included

Extreme Long-Range Radar/Laser Detector

The R8w is Uniden's flagship product. It's simply our best portable, windshield-mount radar/laser detector. Built on the same platform that inspired the R8w. Featuring extreme long-range performance, dual Blackfin® DSPs (Digital Signal Processor) for 50% faster performance and accuracy, and dual antennas gives you full 360° radar directional awareness (voice alerts and visual arrows on a large OLED display). Also, Wi-Fi, Bluetooth, GPS, R/TACH app support, and our speed and red-light database, and more. Also, the R8w features Auto Learn which greatly reduces false alerts over time giving you the quietest ride. Our exclusive proprietary technology, the R8w number one feature is unparalleled performance. Perfect just got better.
