CAT6, Modular Plug, RJ-45 (8P8C) 100-Pack

Product Detail

Application

Overview

CAT6 RJ-45 unshielded modular plugs are made for 4-pair stranded or solid CAT6 cables. These come with loading bars to help guide UTP cable conductors in proper location and for quick crimping process. They are made with 50 micro-inches of plated contacts.

Features

- RJ-45 Crimp Plugs – Rectangular entry for round style solid or stranded CAT5E UTP cables
- Contact design is compatible with 24-23 AWG stranded or solid conductors
- Include loading bars to help guide UTP cable conductors
- Used with RJ-45 crimping tool

Compliance

- UL Recognized
- RoHS

Package Includes

- CAT6 Modular Plug, RJ-45 (8P8C) 100 PCS.
